

## **ANNUAL REPORT 2021-2022**

“Do not train a child to learn by force or harshness; but direct them to it by what amuses their minds, so that you may be better able to discover with accuracy the peculiar bent of the genius of each.”

- PLATO

Reminiscing is almost inevitable and this inspiring quote makes us look back and ahead both at the same time. The year gone by was fruitful, achieving both the expected and the unexpected and this set the milestones for us to make a vibrant, joyous move in the academic session 2022-2023.

Session 2021-2022 was a hybrid session a mixed blend of virtual and physical platform and it remained a successful one with many innovative ideas becoming concrete. With pleasure, I present in a nutshell the highlights of the session.

Virtual classes were held on Zoom and Google Meet. The 40-40 minutes sessions made everyone smart technosavys dealing with the students almost like the physical classroom. Teachers are undergoing a process of continuous development by undertaking a number of training sessions on different portals of CBSE. Examinations were conducted both offline and online and parents co-operated with us by agreeing to be the invigilators.

Excellence in education, fostering the love of learning, promoting the holistic development of students has been the Jankian Hallmark. As the school worked primarily online in accordance with the Government regulations, all the activities and competitions were conducted online. These were a rainbow of wide spectrum and several hues enwrapping all the occasions; from Independence Day to Republic Day from Navraatre to Eid to Christmas to Holi, from Ambedkar jayanti to Netaji jayanti, from Shaheed Diwas to Paraakram Diwas, from Janaashtmi to Makar Sakaranti, from Teacher’s Day to Mother’s Day, from ‘Journalism Spectra’ (News Reporting) to ‘Canon Buzz’ (Social Science Quiz) from ‘Badlaav’ (Hindi Poem Recitation) to ‘Aazaadi Ka Amrit Mahosatav’, from ‘Dialectics’ (English Debate) to ‘Earthly Hues’ (Fancy Dress) ..... and many more.

New initiatives were taken basically to connect with the stake holders. ‘Principal Online’ once a month has become a good platform of connection of the parents and the teachers together from anywhere. Addressing the current Global challenges, students were being made aware of the environment, the challenges, the conservation through dialogues as a part of all the subjects, eco-friendly material usage in competitions, introduction to Sustainable Development Goals, relating project work with them. The school has a wide range of outdoor and indoor games. Students enjoy doing swimming, gym, rifle shooting, skating, as much as playing basketball, football, badminton, kabaddi, kho-kho, taekwondo, table-tennis, chess, billiards. We are thankful to our PTMA and SMC members for their presence and valuable suggestions. In one of these meetings only, 31<sup>st</sup> January was decided to be observed as Jankidevi Edu Lecture series from the year 2022 onwards.

The school has been growing strength to strength since its inception in 2018. It has witnessed an improvement in its infrastructural facilities-which includes the only ‘Planetarium’ in schools in INDIA that not only opens up the ‘Space’ for them but also makes the concepts of Mathematics, Physics, Social Science easier to understand-academic standards, quality of teaching and learning ,assessment pattern and enrollment.We are committed to make our students confident and responsible citizen of the country and promoting their holistic development in all spheres.
